Exercise 8a

Create storyboards to represent the user flow for a mobile app (e.g., food delivery app) using Balsamiq

AIM:

The aim is to create storyboards representing the user flow for a mobile app, such as a food delivery app, using Balsamiq.

PROCEDURE:

Tool Link: https://balsamiq.com/

Step 1: Define the User Flow

1. **Identify Key Screens**:
   - List the main screens your app will have (e.g., Home, Menu, Cart, Checkout, Order Confirmation).
2. **Map the User Journey**:
   - Understand the typical user journey through these screens (e.g., browsing menu, adding items to cart, checking out).

Step 2: Create Storyboards Using Balsamiq

1. **Install Balsamiq**:
   - Download and install Balsamiq from the https://balsamiq.com/ website.
2. **Create a New Project**:
   - Open Balsamiq and create a new project.
3. **Add Wireframe Screens**:
   - Use the "+" button to add new wireframe screens for each key screen in

your app.

4. **Design Each Screen**:
   - Use Balsamiq's components to design the UI for each screen.
   - Include basic elements like buttons, text fields, and images. 5.

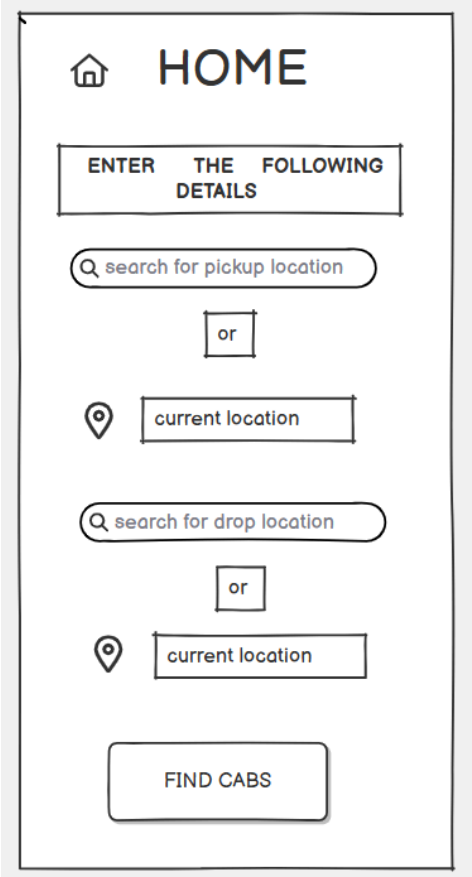
Organize the Flow:

   - Arrange the screens in the order users will navigate through them.
   - Connect the screens with arrows to represent user actions.

Example Screens for Cab booking app

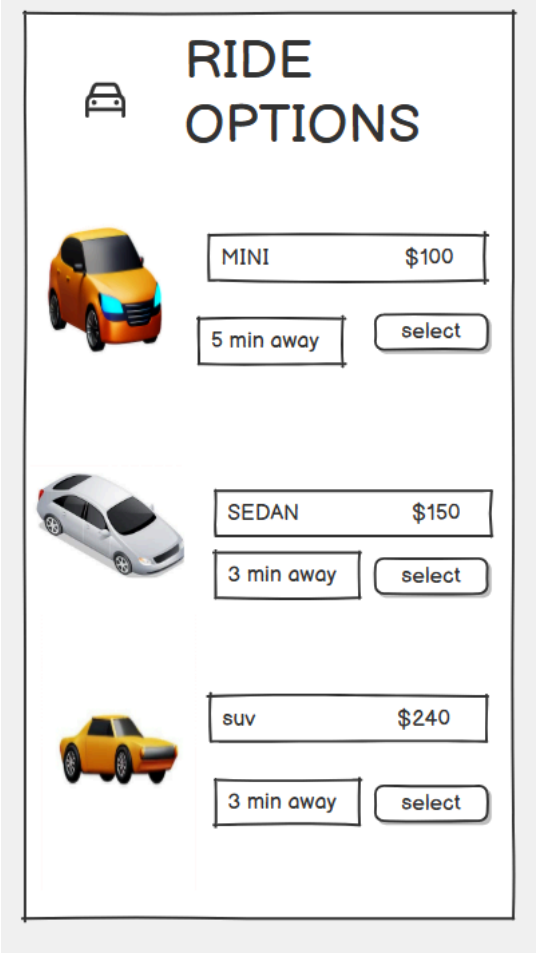
1. Home Screen

- Allows users to enter travel details.
- Search bar for pickup location.
- Option to select current location.
- Search bar for drop location.
- “Find Cabs” button to view available rides



2. Ride Options Screen

- Displays list of available cab types (Mini, Sedan, SUV).
- Shows price and estimated arrival time for each ride.
- “Select” button to choose a cab.



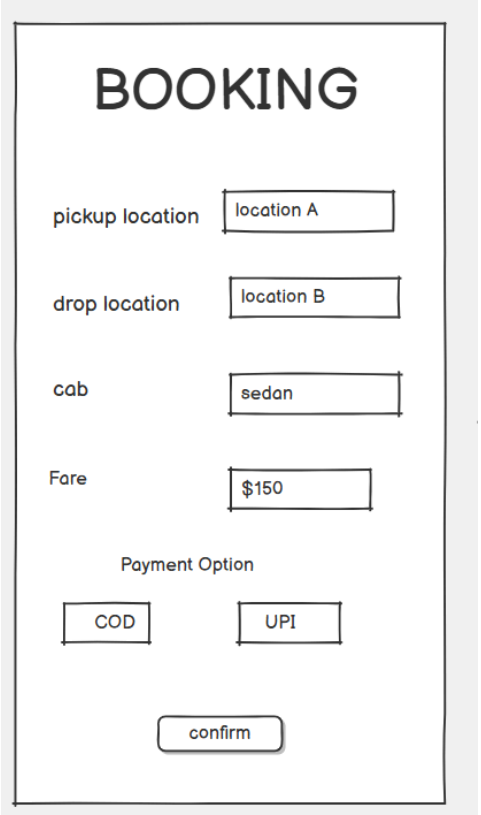
3. Booking Screen

● Displays selected pickup and drop locations.

● Shows chosen cab type and fare.

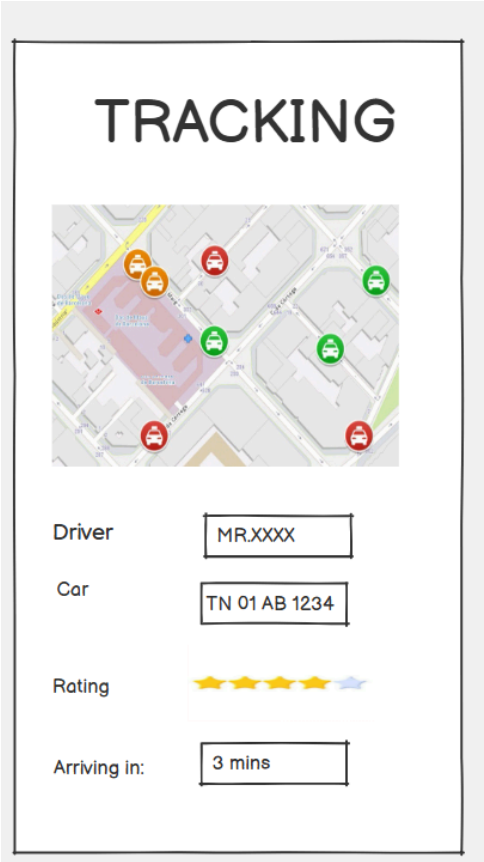
● Provides payment options (Cash / UPI).

● “Confirm Ride” button to book the cab.4. **Checkout Screen**:



4. Tracking Screen

- Displays map view showing driver location.
- Shows driver details (name, car number).
- Displays rating of driver.
- Shows estimated arrival time.



5. Trip Complete Screen

- Displays confirmation message “Ride Completed”.
- Shows total fare and payment status.
- Allows user to rate the driver.
- “Back to Home” button to return to main screen.
